

SEC³URE Mobile App

Stay compliant when you are on the go with the SEC³URE mobile app. Now, from the convenience of your smart phone or tablet, check in and out of mobile app enabled hospitals, manage your account, check your compliance at each of your hospitals, satisfy outstanding requirements, add new hospitals, and much more!

BENEFITS FOR HOSPITALS

- Frees your reception staff from checking-in duties, so they can focus on patients
- Mobile app works in conjunction with the per-visit badge
- GPS integration enables commercial visitor check in only when actually on-site - so all visits, particularly 'billable' ones, are verified
- GPS function confirms when commercial visitors leave site *
- You decide where you allow use of the mobile app for check in or check out, retaining control at all times

BENEFITS FOR COMMERCIAL VISITORS

- Check in to hospitals as you enter the hospital location *
- Check out of hospitals automatically *
- Upload credential documents anywhere
- Read and accept hospital policies at the touch of a button
- Identify and manage your compliance per hospital
- Easily take action or perform key tasks on the move
- Free to download and use in conjunction with your existing subscription

* for participating hospitals, with location services available
